Petition to the British Government
BAN THE MANUFACTURE, SALE AND USE OF ALL TYPES OF SNARE

Snares are wire nooses set in the countryside to trap animals such as foxes which are perceived to be a threat to an industry which breeds millions of pheasants per year to be shot for "sport". But snares are indiscriminate and regularly capture non-target animals including protected species and domestic pets. Even legal types of snare cause horrific injuries such as slow strangulation and slicing the body in two. There can be no human interest which justifies the unimaginable suffering caused by these appalling instruments of torture.

The Hare Preservation Trust and we, the undersigned, call on the British Government to ban the manufacture, sale and use of all types of snare.
